PALM SPRINGS, CA--March 8, 2017

WorldFlix, Inc., a technology and entertainment conglomerate, and its subsidiary Swantry, are proud to jointly announce the release of Swanlock, the newest of the company's apps designed for caregivers and children.

Swanlock is a stand-alone app that will also be included as a feature in the Swantry ,the premiere app for protecting children on smart devices. Swanlock will launch on March 19, ahead of the full Swantry app launch date of April 17.

Swanlock is a simple app that allows caregivers to remotely lock and unlock a child's Android smart device, and to send pictures and / or messages that display on the lock screen. For example, a parent could send a picture of dinner with the message, Time to come home for dinner, while locking the device.

Features of Swanlock include, lock or unlock a separate smart device from anywhere, send pictures and messages to be displayed on the lock screen, The feature can also be used to secure a lost phone and display instructions or reward if found information.

Swanlock provides a caregiver with greater control over a child's smart device, including curfews or limitations on use, to prevent device addictions or other usage problems.

Swanlock will be released as an introduction to Swantry, the comprehensive child protection app that includes the Swanlock feature in addition to many others.

Swantry features include:

- Geofencing
- Curfew
- Real time notifications and alarms
- Versatile messenger app, that aims to stop cyberbullying
- Swanlock to remotely lock and unlock devices and share lock-screen
- App boundary settings
- Internet boundary settings
- End-to-end encryption cybersecurity
- Total privacy to protect family's information
