Frisco, TX 75034**Company's Mission.**

Our business strategy is designed to create and maximize shareholder value by combining and leveraging the knowledge and expertise of our management team with that of our industry partners to develop a diversified portfolio of oil, and natural gas producing projects and prospects

Texas Based Independent Oil Company

West Texas Resources, Inc. is engaged in the business of oil and gas exploration and development in North America.

The Company's objective is to become an independent energy company engaged in the acquisition, development and exploitation of oil and gas properties in North America in partnership with oil and gas producers.

The Company's strategy is to pursue strategic acquisitions of interests in oil and gas properties, including prospects with proven and unproven reserves, which it believes to have development potential. The Company targets both new and existing fields and producing wells to be revitalized.

**From the Desk of the CEO**

West Texas Resources, Inc., through its wholly owned operating company, WTXR Operating (Texas), Inc., is now producing oil. Two of the leases we acquired from an independent operator are making oil to the tanks. The wells are in Caldwell and Gonzales Counties, Texas. We have several shut-in wells we anticipate putting on line in the future.

The jewel in our crown is a 50% working interest in 1070 acres in Hale County, Texas. This is just northwest of the giant Wolfcamp play near Midland. We are evaluating the property and have had some interest in the area by a financing entity with which we have been communicating. We are optimistic that the properties may prove up to be the underlying value we are seeking.

We are, currently, discussing acquisition and development financing with several oil and gas financing entities. The discussions appear to be progressing at this point. The groups are not only looking at our Hale County, Texas properties but also, acquisitions in Texas and California.

This document may contain forward-looking statements, including information about future expectations, plans and prospects. In particular, when used in the preceding discussion, the words "believes," "expects," "intends," "plans," "anticipates," or "may," and similar conditional expressions are intended to identify forward-looking statements. Any statements made in this release other than those of historical fact, about an action, event or development, are forward looking statements. These statements involve known and unknown risks, uncertainties and other factors, which may cause the results to be materially different than those expressed or implied in such statements.
